The Association of Malaysia Oil and Gas Engineering Consultants (MOGEC) was founded in 1999 by six established design services engineering consultants serving the upstream oil and gas industry.

Objectives

The objectives of the Association are:

1. To provide a forum for discussion on issues of common interests.
2. To promote co-operation among members.
3. To promote the use and development of local resources in the oil, gas and petrochemical industries.
4. To collaborate with local research centers and institutions to stimulate skills development in Malaysia.
5. To promote the development of graduate engineers and professionals in the oil, gas and petrochemical industries.

The Association shall be a non profit organization.

In furtherance of its objectives the Association may affiliate with any relevant Malaysian and international institution pursuing similar objectives.

Benefits

Since its inception, MOGEC has been active, meeting once a month, organizing an annual high-tea event and holding its AGM. The Association played a key role within the PETRONAS driven cost reduction initiative – CORAL by active participation and representation of the engineering industry. MOGEC provides a forum for members to discuss common issues.

It is an effective platform to promote the advancement of the oil and gas engineering profession. MOGEC is involved in activities to represent, promote and defend the interests of the industry to PETRONAS, Government, clients and business associates. Through MOGEC, members can be sure that their voice is heard and that people are aware of the value provided by the Engineering Consultants in the oil and gas industry.

The Requirements

1. Founder Members – as above.
2. Ordinary Members

Any multi-discipline engineering company that provides engineering design services to clients in the Oil, Gas and Petrochemical industry and satisfies the following conditions is eligible for Ordinary Membership.

Each applicant shall be a bona-fide engineering design company employing at least 10 (ten) qualified Malaysian Engineers of multi-discipline, performing engineering design work in Malaysia for the Oil, Gas and Petrochemical Industry.
